

Safeguarding Stray

Match The Following!

NAME: _____

1. Stray animals often roam the streets in search of food and shelter. Be mindful when walking or driving to avoid accidentally harming them.
2. Ensure garbage bins are securely closed to prevent animals from scavenging through them and ingesting harmful materials.
3. Loud noises from fireworks, music, or vehicles can startle and distress stray animals. Be considerate during festivals and celebrations.
4. Choose environmentally friendly decorations that won't harm animals if ingested or cause injury if animals become entangled.
5. After kite flying, check for stray threads left behind, as these can entangle birds and other animals, causing serious injuries or death.
6. Sometimes, lost pets may wander the streets. If you come across one, check for identification tags or take them to a nearby shelter where they can be reunited with their owners.
7. Glue traps can cause immense suffering to animals. Use humane methods for pest control to prevent harm to stray animals.
8. Chemicals like pesticides and fertilizers can be toxic to animals if ingested. Choose natural alternatives to keep both plants and animals safe.
9. Before starting your car, honk gently or check underneath for any animals seeking warmth or shelter in cold weather.
10. Synthetic colours used during Holi can be harmful to animals if ingested or if it gets on their skin. Use natural, organic colours to minimize the risk to stray animals.

DATE: _____

Check Before Driving Away

Check Kite Threads

Avoid Using Harmful Chemicals

Watch Your Step

Say No to Glue Traps

Secure Your Trash

Be Mindful of Holi Colours

Watch Out for Stray Pets

Use Eco-Friendly Decorations

Avoid Loud Noises

Skills: Spelling, Problem-Solving, Cognitive, Perseverance and Focus, Knowledge Acquisition, Analytical Thinking, Cultural Literacy

Answer Key

1. Stray animals often roam the streets in search of food and shelter. Be mindful when walking or driving to avoid accidentally harming them. → **Watch Your Step**
2. Ensure garbage bins are securely closed to prevent animals from scavenging through them and ingesting harmful materials. → **Secure Your Trash**
3. Loud noises from fireworks, music, or vehicles can startle and distress stray animals. Be considerate during festivals and celebrations. → **Avoid Loud Noises**
4. Choose environmentally friendly decorations that won't harm animals if ingested or cause injury if animals become entangled. → **Use Eco-Friendly Decorations**
5. After kite flying, check for stray threads left behind, as these can entangle birds and other animals, causing serious injuries or death. → **Check Kite Threads**
6. Sometimes, lost pets may wander the streets. If you come across one, check for identification tags or take them to a nearby shelter where they can be reunited with their owners. → **Watch Out for Stray Pets**
7. Glue traps can cause immense suffering to animals. Use humane methods for pest control to prevent harm to stray animals. → **Say No to Glue Traps**
8. Chemicals like pesticides and fertilizers can be toxic to animals if ingested. Choose natural alternatives to keep both plants and animals safe. → **Avoid Using Harmful Chemicals**
9. Before starting your car, honk gently or check underneath for any animals seeking warmth or shelter in cold weather. → **Check Before Driving Away**
10. Synthetic colours used during Holi can be harmful to animals if ingested or if it gets on their skin. Use natural, organic colours to minimize the risk to stray animals. → **Be Mindful of Holi Colours**
