

Saving the Wild: Who Needs What?

Match each endangered species with the correct conservation action being taken to protect it.

NAME: _____

DATE: _____

Satellite tagging and legal protection under Schedule I

Great Indian Bustard

Habitat fencing, relocation of overhead power lines, and captive breeding efforts

Gangetic River Dolphin

Community patrolling of nesting beaches and protection of eggs

Snow Leopard

Underwater acoustic surveys and pollution control in river systems

Indian Pangolin

Vulture restaurants and banning of diclofenac in veterinary use

Lion-tailed Macaque

Protection of breeding males, grassland habitat restoration, and seasonal monitoring

Olive Ridley Turtle

Eco-sensitive zone protection and strict anti-hunting enforcement

Dugong (Sea Cow)

Protection of temperate forest corridors, community-based ecotourism in the Eastern Himalayas

Red Panda

Underwater seagrass habitat protection and marine conservation reserves

Lesser Florican

Establishment of Project Snow Leopard and community-based conservation in the Himalayas

Indian Vulture

Skills: Spelling, Problem-Solving, Cognitive, Perseverance and Focus, Knowledge Acquisition, Analytical Thinking, Cultural Literacy

Saving the Wild: Who Needs What?

Match each endangered species with the correct conservation action being taken to protect it.

NAME: _____

DATE: _____

Satellite tagging and legal protection under Schedule I

.....

**Habitat fencing, relocation of overhead power lines,
and captive breeding efforts**

.....

**Community patrolling of nesting beaches and
protection of eggs**

.....

**Underwater acoustic surveys and pollution control in
river systems**

.....

**Vulture restaurants and banning of diclofenac in
veterinary use**

.....

**Protection of breeding males, grassland habitat
restoration, and seasonal monitoring**

.....

**Eco-sensitive zone protection and strict anti-hunting
enforcement**

.....

**Protection of temperate forest corridors, community-
based ecotourism in the Eastern Himalayas**

.....

**Underwater seagrass habitat protection and marine
conservation reserves**

.....

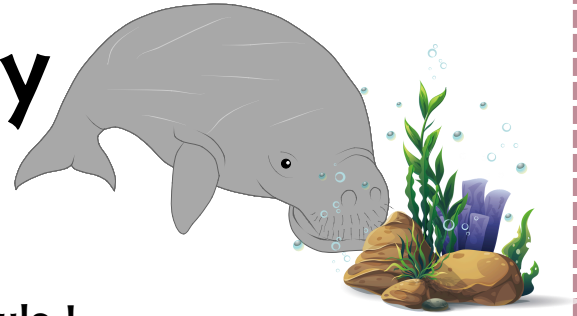

**Establishment of Project Snow Leopard and
community-based conservation in the Himalayas**

.....

Answer Key

Satellite tagging and legal protection under Schedule I

Indian Pangolin

Habitat fencing, relocation of overhead power lines, and captive breeding efforts

Great Indian Bustard

Community patrolling of nesting beaches and protection of eggs

Olive Ridley Turtle

Underwater acoustic surveys and pollution control in river systems

Gangetic River Dolphin

Vulture restaurants and banning of diclofenac in veterinary use

Indian Vulture

Protection of breeding males, grassland habitat restoration, and seasonal monitoring

Lesser Florican

Eco-sensitive zone protection and strict anti-hunting enforcement

Lion-tailed Macaque

Protection of temperate forest corridors, community-based ecotourism in the Eastern Himalayas

Red Panda

Underwater seagrass habitat protection and marine conservation reserves

Dugong (Sea Cow)

Establishment of Project Snow Leopard and community-based conservation in the Himalayas

Snow Leopard

Skills: Spelling, Problem-Solving, Cognitive, Perseverance and Focus, Knowledge Acquisition, Analytical Thinking, Cultural Literacy
