Slithering Secrets

Match the snakes to their unique traits and uncover the secrets of India's slithering reptiles!

NAME: _____

DATE: _____

I live in the Western Ghats, and my beautiful scales come in different colors like green, yellow, and brown!

.....

I am bright green, super thin, and move through trees like a vine!
I hunt using my super sharp vision.

.....

I am a fast-moving, non-venomous snake, and people often mistake me for a cobra because I can raise my head.

.....

I am a semi-aquatic snake, often found near ponds and rice fields, and I love hunting for frogs!

.....

I am a short but highly venomous snake, found in the Western Ghats. My bite can be dangerous if not treated!

.....

I am small but deadly, and I rub my scales together to make a loud "sizzling" sound before I strike!

.....

Skills: Spelling, Problem-Solving, Cognitive, Perseverance and Focus, Knowledge Acquisition, Analytical Thinking, Cultural Literacy
